

NEWSLETTER NO.3

CreaTive Digital Waters

SCOPE

CreDiT was launched in February 2023 with the aim to improve people's access & interpretation of water heritage inside and outside museums through the co-creation of digital campaigns and tools such as digital routes, 3D models, e-media for kids, etc. within its two-years lifespan.

PARTNERSHIP

- DOC SERVIZI - Italy
- VIRTUALGEO (Geomatics and Communication) - Italy
- Global Network of Water Museums (WAMUNET)
- Mediterranean Information Office/HYDRIA virtual museum - Greece
- Opificio delle Acque (GACRES) - Italy
- Aquatika freshwater aquarium Karlovac-Croatia

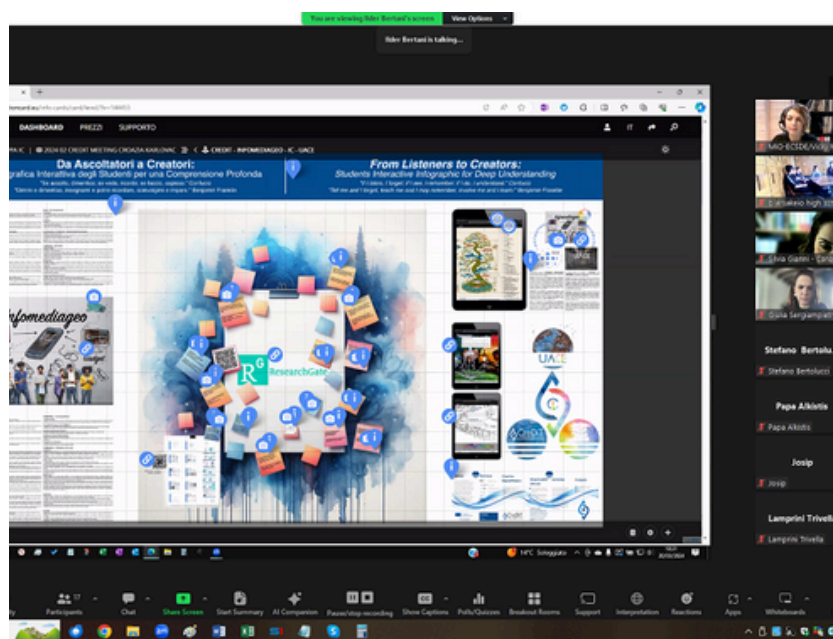

3RD PARTNERS MEETING, KARLOVAC, 7-8 MARCH

The Partners discussed and co-planned next steps and actions. They participated in an intensive practical workshop on the digital tools for cultural heritage that are applied in CreDiT: the "Information card" and the UACE platform. Last but not least, they further exchanged on activating the networking and dissemination aspect of the project to reach out and engage other water museums and stakeholders. The meeting was kindly hosted by AQUATIKA.

Inside the Aquatika

STUDENTS CREATIVE TRAININGS

Two online students trainings held on 20 March & 10 April. The webinars introduced them to CreDiT, the uace platform and digital tools for water heritage. Some 40 high school and university students, educators and museum staff from Croatia Greece and Italy developed knowledge and skills. Then, the students applied themselves the digital tools on the uace platform under the guidance of their museums.

UACE CREDIT PLATFORM

The new digital platforms of the three museums: Aquatika, HYDRIA and Opificio delle Acque are in progress! The e-platforms will include interactive maps with points of interest, information texts, visual material, Arting and Coloring sections as well as a unique section with 3D models of selected pieces or areas of interest, chosen by the museums. They will be available in the summer. *Stay tuned!*
