**WHAT WE WILL DO?** With a **DECAPITALISED CARE** approach, rooted in the principles of intersectionality and interdependence, the project offers training, forums, intergenerational and intercultural **exchanges**, with a focus on gender equity and major global challenges. Together, we will **co-design** pilot actions and campaigns for a concrete **impact**. The project will conclude in March 2027

The **Care Approach** focuses on both people (before profit) and the planet. The YOU(th) CARE project will **create opportunities** to explore the interdependencies between global challenges

The project will culminate in Forums, where young people will share their agendas and transform them into campaigns. **YOU(th) CARE** will support and fund 12 networking projects

Hundreds of young people will access the **Campus** to develop agendas and 24 local initiatives.

These stories will be shared in the media and presented at events like the G8 summit and COP
